Dear Commissioner Kelly,

I herewith attach a FOIL request for information concerning death on the BQE.

We live in a building directly overlooking this highway. It is a rare week that we do not witness an accident from our windows. Will you take a personal interest ?

I am looking forward to receiving the information requested in my FOIL request at your early convenience.

Respectfully yours

/s/ Werner Cohn

FOIL REQUEST, August 20, 2007

This is a request for specific information about traffic accidents at three Brooklyn locations.

The locations are described in Table I. They are two on-ramp sites to the BQE and one on-ramp site to the Prospect Expressway. Information is requested on accidents on or in the immediate vicinity of these ramps. The focal point of interest in each case is the location at which these on-ramps join the highway.

For each month for the last available 24-month period, and for each of the sites described in Table I, please furnish

- a) the total number of reported vehicular accidents
- b) the total number of injured persons involved in these accidents
- c) the total number of fatalities involved in these accidents
- d) the average annual daily traffic (AADT) at each of these sites

Respectfully requested by

Werner Cohn
